

# Nothing Like You

Shawn Colvin

Four blocks up and two streets down,  
I went back to my old hometown  
Like a kid I ran and hid on cue

That's when times were really sad  
Winter there was really bad  
And we all just froze but for a chosen few

Did you ever see someone you knew  
Holding fast and staying strong and true  
And they were nothing like you?

Truth to tell and time to burn  
I hit the wall at every turn  
The ceiling cracked in half and I just flew

Poetry is what I heard  
I was hanging onto every word  
I was a lover for the world to woo

I have seen the top of Mt. Ventoux  
I have seen a miracle or two  
And they're nothing like why oh you

You've been waiting for awhile  
I can tell

Off my head and on the fence  
Maybe there's no accidents  
Anyway I'd say I have come to

So fool me once that might be fun  
Fool me twice well that's been done  
You can fool me everyday I won't say boo

I believe I have pulled a major coup  
I believe I have boarded up the zoo  
I believe I have dropped the other shoe  
And there's nothing like why oh you
