

# That Don't Worry Me Now

Shawn Colvin

Before you knew me  
An angel came to me  
I wrestled him down to the ground  
He said he could cure me I said  
That don't worry me now

Those angels just bore me  
The same old damn story  
They were lost oh but now they been found  
Ain't nobody lookin but  
That don't worry me now

I live by the sound  
Of devils in flight  
I travel alone  
In the cold  
In the dead of  
The deep dark night

So if Jesus is comin  
He'd better start runnin  
I don't really think he'll be proud  
And I won't get to heaven but  
That don't worry me now.

I live by the sound  
Of devils in flight  
I travel alone I  
In the cold  
In the dead of  
The deep dark night

And if flocks of the best  
Will sing me to my rest  
I'll never get used to that sound  
Just give me Sam Cooke singin

That don't worry me now
