

# Shadows

Shawn Hook

Take another pill  
Chase another thrill  
Dancing on the neon light  
It's good to be wanted  
Isn't it, isn't it

When we're in this room alone  
It feels like a break in time  
But I know we're gonna leave it all behind

Do we say goodnight  
And just walk away  
Do we live a lie  
And pretend we'll stay  
When the morning comes around  
Two shadows fade in the light  
Do we say goodnight  
And just walk away  
Do we live a lie  
And pretend we'll stay  
When the morning comes around  
Two shadows fade in the light

Every could've been  
Burns you from within  
Touched down in this motel town  
It's all too familiar  
Isn't it, isn't it

A little voice in the back of your mind  
Is telling you to run  
Coz you know  
You don't like what you've become

Do we say goodnight  
And just walk away  
Do we live a lie  
And pretend we'll stay  
When the morning comes around  
Two shadows fade in the light

Don't you know we're so much more  
Than just bones and skins  
I don't know what I'm looking for  
But I know where I've been

Do we say goodnight  
And just walk away  
Do we live a lie  
And pretend we'll stay  
When the morning comes around  
Two shadows fade in the light

Do we say goodnight  
And just walk away  
Do we live a lie  
And pretend we'll stay

When the morning comes around  
Two shadows fade in the light
