

# So Close

Shawn Hook

I'm walking to the sound  
The blood that moves around inside me  
The beat drops in my heart  
Below my feet the stars can lift me

Lanes are all clear  
I've always dreamed that I'd be here  
But this seems too weird

So close I can taste it  
I've waited all my life (for this)  
And I don't wanna waste it  
I've chased this all my life (I'm so close)

This town will test your fate  
Will put you in your place and leave you  
Where everyone's a name and everything's a game of who's-who

The cards are in play  
I'm sitting on a hand that no one can take away

So close I can taste it  
I've waited all my life (for this)  
And I don't wanna waste it  
I've chased this all my life (I'm so close)

Oh, so close  
So close  
I've been so close all my life

I'm in need and I believe that I'll find a way somehow all my life

Lanes are all clear  
I've always dreamed that I'd be  
So close that I can taste it  
I've waited all my life (for this)  
And I don't wanna waste it  
I've chased this all my life (I'm so close)

All the ways I've been tryin' now  
Yeah, I've been lost and found  
The tears and the breakdowns  
Have made me stronger now

I'm in need and I believe that I'll find a way somehow all my life
