

# Two Hearts Set On Fire

Shawn Hook

Two hearts set on fire  
like shooting stars that only we could see.  
And we're falling into the deep end  
crashing faster than we thought it could be.

Two hearts set on fire,  
two hearts set on fire.

I was the king of move along,  
She was the queen of scared and strong,  
looking out for no one but ourselves.  
I was tryna make a name in a hopeless town,  
She was tired of playing games with the lonely crowd.  
Surrounded by so many dreams left on the shelf.

Two hearts set on fire  
like shooting stars that only we could see.  
And we're falling into the deep end  
crashing faster than we thought it could be.

We're two hearts set on fire,  
two hearts set on fire.

We were holding onto hope maybe something more,  
always looking for another open door,  
tryna make our way through life of city streets.

Two hearts set on fire  
like shooting stars that only we could see.  
And we're falling into the deep end  
crashing faster than we thought it could be.

We're two hearts set on fire,  
two hearts set on fire.  
We're two hearts set on fire,  
two hearts set on fire.

Please let this be a one way ticket out of here  
to somewhere we can disappear.  
Then she said lets return you and I are on the moon  
to watch the sunset behind our rocket.

I was the king of move along,  
She was the queen of scared and strong,  
looking out for no one but ourselves.

Two hearts set on fire,  
two hearts set on fire.

Two hearts set on fire  
like shooting stars that only we could see.  
And we're falling into the deep end  
crashing faster than we thought it could be.

Two heeeeeeeeeaaaaaarts!
