## Closer

## Shawn McDonald

[Verse 1] Looking for a color In a shade of gray, Looking for love In a drop of rain. Trying to change from The old mundane. Everything i do just Feels the same. Spending my life Out of the desert. Been gone so long Feels like forever. [Chorus] I just want to be Even closer to you. I just want to Be even closer. I am yours. You can have all of me, Anything, everything. I just want to Be even closer. [Verse 2] A day without you Is a thousand years. A day without you Is a million tears. Tell me why do I run in fear? Why do i run when You are so near? Spending my life In the weather. Been gone so long and I need some shelter. [Chorus] I just want to be Even closer to you. I just want to Be even closer. I am yours. You can have all of me, Anything, everything. I just want to Be even closer. [Bridge] Wherever you go, Wherever you are, I just want to be There with you.

[Chorus]

I just want to be Even closer to you. I just want to Be even closer. I am yours. You can have all of me, Anything, everything. I just want to Be even closer.

[Outro] Looking for a color In a shade of gray, Looking for love In a drop of rain.
