

# Faithful

Shawn McDonald

It's been so cold I can see my breath  
Feeling like Winter inside my chest  
Hope that I can make it through today  
It's so easy to just forget  
The troubles that You've brought me through and yet  
I find it so hard to trust that You will stay

[Chorus]

And I need to I need to remember  
Oh I need to I need to remember  
You're Faithful, even when I fall down  
Even when I go South You will always be  
Faithful, and I need You now, oh I need You now  
Every part of me  
You're Faithful, You're Faithful  
You're Faithful, You're Faithful

What if I choose to just let go  
And let You take full control  
What if I finally trust that Your love remains

[Chorus]

And I need to I need to remember  
Oh I need to I need to remember  
You're Faithful, even when I fall down  
Even when I go South You will always be  
Faithful, and I need You now, oh I need You now  
Every part of me  
You're Faithful, You're Faithful  
You're Faithful, You're Faithful

Sometimes I feel like I'm way over my head  
And I lose You  
But I'm gonna do whatever it takes to stay

Faithful, You're Faithful  
You're Faithful, even when I fall down  
Even when I go South You will always be  
Faithful, and I need You now, oh I need You now  
Every part of me  
You're Faithful, You're Faithful  
You're Faithful, You're Faithful
