

# Mystery

Shawn McDonald

What will cause a man  
To climb the highest mountain in search for more  
And will cause a man  
To swim the vast blue sea in search for more  
What will cause a man  
To soar through the clouds in search for more  
Yes what is he looking for

[Chorus]

Now I'm sailing on the sea of Mystery  
And I'm floating on the ocean of unknown  
And I'm going to come ashore until I find what I'm looking for  
I'm not coming back til I find love

What will cause a man  
To wage the wildest storms in search for more  
What will cause a man  
To explore the darkest jungles in search for more  
What will cause a man  
To fly to the moon in search for more  
Yes what is he looking for

[Chorus]

Now I'm sailing on the sea of Mystery  
And I'm floating on the ocean of unknown  
And I'm going to come ashore until I find what I'm looking for  
I'm not coming back til I find love

Now I'm sailing on the open open blue  
In hopes of someday finding You

[Chorus]

Now I'm sailing on the sea of Mystery  
And I'm floating on the ocean of unknown  
And I'm going to come ashore until I find what I'm looking for  
I'm not coming back til I find love
