

# Aftertaste

Shawn Mendes

Re-re-rewind that one Friday night  
Never forget it  
How you let me go  
No more lies I'll be fine  
I know where I'm headed  
Probably should've known  
Now you're gonna say  
pretty please forgive me  
Fooled me once told you twice  
you're gonna regret it  
Now you're all alone yeah

Turns out that no one can replace me  
I'm permanent you can't erase me  
All of you remember me  
One more kiss is all it takes  
I'll leave you with the memory and the aftertaste

Close your eyes  
you get high try to forget me  
but I'm everywhere  
I'm the smell on your sheets  
you regretted when you left me there  
Now you're gonna say  
pretty please forgive me yeah  
Bet it hurts it gets worse you know  
nobody said it would be fair oh yeah

Turns out that no one can replace me  
I'm permanent you can't erase me  
All of you remember me  
One more kiss is all it takes  
I'll leave you with the memory and the aftertaste

And now there's something in your way  
Cause you threw it all to waste  
And you wonder if you could take back  
what you did that day  
and it hurts cause

Turns out that no one can replace me  
I'm permanent you can't erase me  
All of you remember me  
One more kiss is all it takes  
I'll leave you with the memory and the aftertaste

Truth is that no one can replace me  
I'm permanent you can't erase me  
All of you remember me  
One more kiss is all it takes  
I'll leave you with the memory and the aftertaste  
I'll leave you with the memory and the aftertaste
