

Find Love

Shawn Mullins

Stop regretting all the years inside your head
Not forgetting there's some truth to what you said
And you know now that I gotta keep rollin' on
Here we go now, we're driving through another dawn

Someday you'll find love
Someday you'll find love
Someday you'll find love

When it's over, do you try to build another fire?
Or do you pour water on the coals? Are we both just too damn tired?
And you know now that I gotta keep movin' on
Here we go now, everything we had is gone

And someday you'll find love
Give you everything you need
And someday you'll find love
Give you everything you need
Someday you'll find love, find love

For the record, I never said that you should stay
What you were after, I never had to give anyway
And you know now, I gotta keep rollin' on
Here we go now, I'm drivin' through another dawn

And someday we'll find love
Give you everything you need
And someday we'll find love
Give you everything you need

And someday we'll find love
Give you everything you need
And someday we'll find love
Give you everything you need
