Now every time we drop the whole world waitin on us
Now when you talk we in the best of ya five
They sayin hip hop dead

And don't you eva get it confused
Cause we the ones that sold it to the dude that sold it to you
First album out the trunk I started makin some bills
And in 6 short years I sold 15 mil
Act a fool in College Park
Went to School in College Park
Bought a crib in College Park
And still live in College park
You can't tell me nothing

Had city on my back
But now I wear it on my neck
800 thousand dollars worth of diamonds just to flex
That Wayne Williams shit was sick
Sidney Dorsey trial was thick
Love Atlanta
Give a million up just to get back Michael Vick
They said that this the land of strippers
But look all our girls are thick
She so fine
Don't dance no where
But I Feel she need a tip
If Gucci give you 16 then it's just like 20 bricks
Off the sidewalk
Zone 6 off in this bitch
Came off Atlanta sick
I remember hand em bricks
Sendin thug thousand loots
Seen the police then I sprint
I done been around the world probably 3 times
I'm still gonna end up on on the east side
