

# Melt the Snow

Shayne Ward

Sometimes out my window  
I notice that you've been crying over him  
And I wonder why you just don't  
Kick him to the curb  
Instead of giving in

R: You see love at first is summer time  
That's when you think that everything's fine  
No one ever thinks its gonna end  
But when things go wrong and winter comes  
You're gonna need to run to someone  
Left alone you'll just freeze up again  
But you should know  
When it gets too cold  
You're not alone  
I'll melt the snow

Some nights I can hear you  
Screaming on the phone over  
something that he did  
And I wonder what can I do  
To make you throw him out  
so you can let me in

R:

I'll melt the snow  
Ill melt the snow (6x)

R: (2x)

But you should know  
When it gets too cold  
You're not alone  
I'll melt the snow  
I'll melt the snow
