

## Me And You

She & Him

Well I'm back in your good graces, again.  
Remember when you told me that I was your only friend  
well you made the best of this life where you never knew  
one day from the next, dig your heels in a little girl  
put them to the test  
you gotta be kind to yourself.  
you gotta be kind to yourself

well i heard you had the blues again  
seems like all those little things add up in the end  
well i know that you heard a lot about things you can't control  
so many things we like to have, we just cannot hold.  
you gotta be kind to yourself.  
you gotta be kind to yourself.  
you gotta be kind to yourself.  
you gotta be kind to yourself
