

# On Standby

Shed Seven

Would you stay on standby?  
Because I need another alibi  
In the wrong place at the wrong time

Could you talk a fine line?  
I need to know that I'll be fine  
Bulletproof

It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born

We believe in other ways  
That you do and you did  
And there's proof  
That we did wrong tonight

Could you sense a tragedy?  
Because I saw it on the BBC  
There's a panel on that channel

Could you walk a narrow line?  
I need to know I'll serve my time  
With some use

It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born

We believe in other ways  
That you do and you did  
And there's proof  
That we did wrong tonight

And tonight  
You can cry if you want to  
But it won't help you

You can cry if you want to  
But it won't help you  
To get you through this crime  
It will plague you standby

It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born

We believe in other ways  
That you do and you did  
And there's proof  
That we did wrong tonight

We did wrong, we did wrong
