

On Standby

Shed Seven

Would you stay on standby?
Because I need another alibi
In the wrong place at the wrong time

Could you talk a fine line?
I need to know that I'll be fine
Bulletproof

It's like I've never been born
We conceive in the alleyways
It's like I've never been born

We believe in other ways
That you do and you did
And there's proof
That we did wrong tonight

Could you sense a tragedy?
Because I saw it on the BBC
There's a panel on that channel

Could you walk a narrow line?
I need to know I'll serve my time
With some use

It's like I've never been born
We conceive in the alleyways
It's like I've never been born

We believe in other ways
That you do and you did
And there's proof
That we did wrong tonight

And tonight
You can cry if you want to
But it won't help you

You can cry if you want to
But it won't help you
To get you through this crime
It will plague you standby

It's like I've never been born
We conceive in the alleyways
It's like I've never been born

We believe in other ways
That you do and you did
And there's proof
That we did wrong tonight

We did wrong, we did wrong
