

# Almost Always

SHeDAISY

So what you packed up, picked up your love and left  
I can pick up 50 channels on the TV set  
I've got 10 toenails I can paint a nice shade of pink  
But when the fun's done in a second or two  
I kinda sorta maybe start missin you  
So I crank up the radio to drown out the thoughts I think

Almost always you never cross my mind  
Almost always I never cry  
Every other minute I'm strong as I can be  
It's just those lonely minutes in between  
But I'm doin OK almost always

Just because I let the dog sleep on the bed  
Doesn't mean I'm wishin you were here instead  
Whisperin sweet words, lyin all close to me  
Yeah, I don't dream about you cuz I lie awake  
I always thought sleep was over rated anyway  
I find most of the time I'm almost over you as I'll ever be

Almost always you never cross my mind  
Almost always I never cry  
Every other minute I'm strong as I can be  
It's just those lonely minutes in between  
But I'm doin OK almost always

Almost always you never cross my mind  
Almost always I never cry  
Every other minute I'm strong as I can be  
It's just those lonely minutes in between  
But I'm doin OK almost always
