Before Me And You

SHeDAISY

Every kiss before this Was nothing but a waste of breath And every I love you was just a whoop-de-doo Never knew what I missed before this

Da, doo, doo, doo Ooo, Ooo

And every love song before you came along Was always about someone else Oh, and every star was just a wish too far Always a realist, yeah, before this

And the way things go, you never know Where love will lead you to And everything we've ever dreamed Lies before me and you

People say, it's not everyday That you find the perfect fit But when I fell for you, I found the other shoe Cupid was a myth before this

Yeah Da, doo, doo, doo, doo, doo Da, doo, doo, doo, doo, doo Da, doo, doo, doo, doo Yeah

Yeah, before me Me and you
