

Cool Love

Sheena Easton

Pardon me boy did you say that you were leavin'?
I hope this reason's better than the one you gave before
Everytime I get to close. Run away and leave me so bewildered
And I wonder I you want me anymore

Over and over I tell myself
That love's for me and no one else
I want to forget you I swear to god I do
But we got a cool love baby we got it
We gotta cool love
Cool love-baby we got it
We gotta cool love
Cool love

Pardon me boy didn't I tell you that you need me?
Didn't I make you happy everytime we made love?
Didn't I make your stomach pound
Knock you out in every round
Wasn't it good for ya babe - wasn't it good?

Over and over I tell myself
That love's for me and no one else
I want to forget you I swear to god I do
We got a cool love baby we got it
We gotta cool love
Cool love-baby we got it
We gotta cool love

I can't imagine a world without you
Sleeping without you next to me
Somebody tell me what to say to make this lover see
Cool love
Cool love

Pardon me boy did you say that you were leaving?
I hope this reason's better than the one you gave before
Over and over I tell myself
That love's for me and no one else
I want to forget you I swear to god I do
In spite of what you say or do
Baby, baby this love is cool
Cool love - baby we got it
We gotta cool love
So cool
Cool love-ice cold
Cool love
Baby, baby we got a cool love
Cool love
