

Dance Away The Blues

Sheena Easton

I've been waiting long enough
I've been hurting far too much
Ooh, there's nothing left
Ever since you went
Ever since you broke my heart

I turn the lights down low
Imagine I'm with you
And dance away the blues
I find an old love song
I play it all night long
And think of you
As I dance away the blues

Understanding love is tough
Never being loved enough
Living with myself
Living on my shelf
Only you can break this spell

What was that I heard you say
Are you coming back to stay
You can still be mine
Through this tender night
Help me keep our love alive

I turn the lights down low
Move in close to you
And we'll dance away the blues
Oh oh baby, I find an old love song
We'll play it all night long
And start anew
As we dance away the blues
As we dance away the blues
As we dance away
