

# Don't Send Flowers

Sheena Easton

Carry on to the other side, have some fun on the other side  
You were always tripping on your feet  
'Round the wrong way down the one way street  
Since the day when you found your wings, you await too much bet  
ter things  
Now you never get the chance to see, what's been going on insid  
e of me  
Don't forget all the love I gave you on your way

Don't send flowers, just give me some hours  
Just a minute of your time, would really make it shine, so thin  
k it over  
Don't send flowers, from ivory towers  
I just wanna see your face, forever and always, please think it  
over

Find your way through uncertainty, then one day, please come ba  
ck to me  
I'll be waiting in the weeks for you  
If you find you don't know what to do  
Darling, come back to me forever, but till then

Don't send flowers, just give me some hours  
Just a minute of your time, would really make it shine, so thin  
k it over  
Don't send flowers, from ivory towers  
I just wanna see your face, forever and always, please think it  
over

Don't send flowers, just give me some hours  
Just a minute of your time, would really make it shine, so thin  
k it over  
Don't send flowers, don't send flowers, don't send flowers
