## **Eternity**

## **Sheena Easton**

Seems like eternity since I've been in your arms
A multitude of colorless hours pass
I crave the life inside you, it keeps me from harm
I only pray that it's not just another God

Eternity, I want to be with you for all eternity Darling, you be the only one for me, together for eternity

I long to touch your warm, the world out there's so cold Whenever we, I don't know, but I do know, baby, I want you all the time

You are the beginning, middle and end to every story told You are the science of my mind

Eternity, I want to be, I want to be
I want to be with you for all eternity
Darling, you be the only one for me, together for eternity

And it seems like a year away that you and I were making love One should take a life day to day But all my dreams are made of, all my dreams are made of

Eternity, I want to be, I want to be I want to be with you for all eternity Darling, you be the only one for me, together for eternity

Eternity, I want to be, I want to be with you With you, with you, with you, with you Darling, you be the only one for me, together for eternity

Eternity, eternity, yeah
