

# Let Me Go Through This Alone

Sheena Easton

The way you make love feels so good  
I hope my kisses make that understood  
If I seem to be distant tonight  
Oh, I'm sorry, I know it ain't right

Baby, there is someone  
I can't run from someone from the past  
Oh baby, I got to face it

So here is the one thing I ask  
Let me go through this alone  
Some things I got to work out on my own  
It's no reflection on you  
I'm just a little confused  
If you love me baby you'll know  
You've got to let me go through this alone

I know it's hard for you to believe  
You've got to put your trust in me  
In your arms is where I belong  
I will come back to you  
Twice as strong  
Baby, I'll never hurt you  
No I won't desert you  
See your dreams are mine  
And baby this I promise  
All that I need is some time

When I look in your eyes  
I don't want to feel  
Like I have to lie  
Got to go tell somebody else
