

# Magic Of Love

Sheena Easton

I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?  
I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?

There's no love in your life  
Days feel long, you're all alone  
And life waves you bye-bye

You close the door to your heart  
Don't want to let the pain in yet  
You're always on your guard

But when the love birds start to sing  
You hear bells start to ring  
And you feel it's happening, oh baby

I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?  
I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?

There's no love in your home  
You're on the street so incomplete  
You're out on your own, oh

You'll meet some just along for the ride  
But you know, you know where they're coming from  
Let your conscience be your guide

But when the day comes, the night goes  
When your hate stops your love flows  
Stimulation in an overload, oh baby

I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?  
I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?

I can feel it in my heart  
I feel the power of the hour  
A sensation celebration

I can feel it, feel it in my soul, my soul  
Feel the magic all around you  
Now that love has found your life

I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?  
I believe in the magic of love, baby  
Do you believe, do you believe in the magic of love?

I believe
