

# Please Don't Sympathise

Sheena Easton

Everybody tells me, I should try to forget you  
They tell me why, but don't tell me how  
I know they mean well, but it does not help me  
I'll work it out by myself somehow  
Got to be on my own, it's just something that I must face  
alone

Please don't sympathise, it really doesn't help  
Don't give me your advice, just keep it to yourself  
I appreciate your taking time to call  
But please don't sympathise, it doesn't help at all

Friends come to see me, but I just can't face them  
I feel such a fool, when they see me cry  
Since you walked out, I've been so downhearted  
It's hard to take, but I know I must try, so

Got to be on my own, it's just something that I must face  
alone
