

## So Far So Good

Sheena Easton

No way of knowin' where we're goin'  
No way of tellin' what we've got  
Love is attraction, calls for action like it or not  
We're no one-nighter, we're much righter  
I taste tomorrow in your kiss  
But I can't sell you, I won't tell you  
That we can't miss, I'll just say this

So far so good  
We've been movin' right along just like we should  
So far so good  
If it isn't love it's still in the neighborhood  
Knock on wood baby, so far so good

I tell you one thing, we got something  
Somethin' that's comin' from the heart  
If we don't know it  
I just know it could be a start  
You take your chances with romances  
Nobody gets a guarantee  
We're much better than  
I ever thought we could be  
So let's just see

So far so good...

I'm not pullin' any punches  
I'm not handin' you a line  
I'm just telling you my hunch  
Is all we need is a touch more time
