

# There When I Needed You

Sheena Easton

You're too kind, an easy touch for strangers  
You take them in, salvation for the wayward souls  
Losers no one wants to know, vagrant love's got a place to go  
When he's down and out, that's when you're attracted  
Another victory in your personal crusade  
I was all used up beyond repair, you picked me up

You were always right there when I needed you  
You were there when I needed you (brought me back)  
There when I needed you (recycled me back to love)  
You were there when I needed you (brought me back)  
It's the same old song, your patience made me fall for the doctor  
That's your sign, you knew that I would be okay (you sent me on my way)  
On to your next mission somewhere, like you saved me

On to your next mission somewhere, like you saved me

There when I needed you (recycled me back to love)  
You were there when I needed you (brought me back)
