

## You Can Swing It

Sheena Easton

First there was a dance  
Then the music stopped  
A chain of circumstance  
Left you broken up  
How did every dream  
Cycle into dust  
I still believe in you  
You still believe in trust...me

Don't let me catch you down  
Like a fallen angel  
You should've known that  
I would be lifting you higher  
So pick up the beat  
And you can swing it

Yeah we're gonna swing it together  
Take control  
Everything will turn out better  
Can't you see  
We're gonna swing it together  
Take control  
Everything will turn out better

Easily seduced  
Temptation everywhere  
Surrender to the blues  
Surrender to despair  
Life is what we choose  
The heart will always bleed  
For every kind of love  
Is every kind we need...now
