

# It Might Be Me

Shelby Lynne

I can see it your eyes  
And it's written in your face  
Love's taken its toll on you  
And left a bitter taste

You're tired and you're lonely  
You're beaten and you're bruised  
Your heart has grown weary  
Just trying to find a little truth

It might be me  
Lord, it might be me  
If you still have an ounce of faith  
I might be what you need, oh

It might be me, oh  
It might be me to set you free  
If you're still reaching for the light, Lord  
Well, it might be me

Have a little courage  
Ooh, baby, baby, baby, take my hand  
All anybody needs in this old world  
Is just one good friend

And I'm telling you that it might be me  
Lord, it might be me  
If you're still reaching for the light, Lord  
It might be me, yeah

Lay all your troubles down on me, baby  
Oh, I'll show you what to believe in  
I know just what you're feeling  
Everybody needs some healing, loving, can't you see? Yeah

It might be, it might be me, oh baby  
It might be me to set you free  
If you're still reaching for the light, oh  
Well, it might be me, yes, yeah  
If you're still reaching for the light  
Well, it might be me
