

# Trust Me

Shelby Lynne

Faith, hope, stay

Allow me to introduce you  
To a place where trust talks to you  
Taste

Take a moment, take one hundred years  
It's sweet  
No matter what comes, I am here

I just want to talk to you  
Got some questions on my mind  
I feel like you have gone away  
I can't find you

I wonder where your head has been  
Just want to be near you again  
Feel like you are hiding from me  
Gotta find you

Let's ignore off all our troubles  
I will hold you like no other  
I'm your father, I'm your mother  
Trust me

Forget the past, we are the future  
Together we're the perfect picture  
I'm your cover, I'm your lover  
Trust me

We're gonna go places  
I'll take you there

Forever since you let me touch you  
Did you forget how much I love you?  
Don't you know how bad I want you?  
Remember

Take a step back in my eyes  
When we took up each other's time  
With you in me I feel alive  
You're my everything

Let's ignore off all our troubles  
I will hold you like no other  
I'm your father, I'm your mother  
Trust me

Forget the past, we are the future  
Together we're the perfect picture  
I'm your cover, I'm your lover  
Trust me

Back up, give up, hold up, time's up  
Get up, look up, rise up, clean up  
Baby, you know I got you  
It's under control

Side ways, any way, new way, back way  
Some way, other way, all way, my way  
Baby, let go of it all  
It's under control

Let's ignore off all our troubles  
I will hold you like no other  
I'm your father, I'm your mother  
Trust me

Forget the past, we are the future  
Together we're the perfect picture  
I'm your cover, I'm your lover  
Trust me

Oh, baby, let go  
We're the future, perfect picture  
Stay, this way  
I am yours
