

Wish I Knew

Shelby Lynne

Once upon a time you gave your love to me
Now we've grown apart
Wish I knew how to love you
Wish I knew how to make you mine
Seems the harder that I try, you run from me
Well I guess I'll never hold you again
The times we've shared together
Were like a dream come true
But now my life is empty
Without holding you
My mind is so confused
I've given all my love to you
Oh but, still, I wish I knew

I just don't want to understand
How I can please you
Cause I've tried everything
And nothing seems to do
Is there a place for me
Is there a way to reach your heart
Is there any hope for us
Oh but, still, I wish I knew

Please somebody tell me
What I'm supposed to do
I don't want to guess anymore
About what I'm supposed to do

Oh, maybe some day
I'll find my way to you
And maybe some day
Oh but, still, I wish I knew

Still, I wish I knew
