

Canada

Shellac

We oughta name a song after you,
Call it "Canada"
Imagine a country so blue
Asafetida

I'm at a loss for words
Explaining the sentiment
Its size implies substance
You invented it

Imagine
There was a time
Your cigar was ironic
You've been at it so long
It's chronic

We oughta name a song after you,
Call it "Canada"
Imagine a country so blue
Backwards it's "adanaC"
