

## Cabin Fever

Shenandoah

Me and my baby's got cabin fever  
It's been a long week and I'm gonna treat her  
To a little get away, way back in the pines  
Lay a blanket on the ground and watch the moon shine

Loving in the country feels a little sweeter  
Me and my baby's got cabin fever

It's been a month of Sundays  
Since we've had time alone  
We'll be back the first thing Monday  
We need a break from the telephone

Take the kids to your mama's  
Drop the dog at the pound  
Put the Coleman in the truck, stop and fill 'er up  
We're heading out of this town

Me and my baby's got cabin fever  
It's been a long week and I'm gonna treat her  
To a little get away, way back in the pines  
Lay a blanket on the ground and watch the moon shine

Loving in the country feels a little sweeter  
Me and my baby's got cabin fever

I can hear the crickets singing  
Outside our window pane  
Feels so good, I must be dreaming  
She's as soft as summer rain

It's just a little bitty love shake  
Tailor-made for two  
A place to hide away and love the night away  
And we're a little overdue

Me and my baby's got cabin fever  
It's been a long week and I'm gonna treat her  
To a little get away, way back in the pines  
Lay a blanket on the ground and watch the moon shine

Loving in the country feels a little sweeter  
Me and my baby's got cabin fever
