

# Something's Missing

Sheppard

1. I walk a road that no one dares  
Without the lines without the fares  
Hoping for a second chance  
A shot to get another dance  
A hand to hold before the end

2. I feel the love I feel the pain  
Not enough to make me whole again  
If only I could feel complete  
A puzzle with a missing piece  
Gets locked away and buried underneath

R: 'Cause I know something is missing  
I know something is missing  
I know something is missing now

3. Well I was not a bitter man  
But life I guess had other plans  
Through the glass I see your face  
Behind the eyes an empty space  
'Cause I messed up along the way

R: 'Cause I know something is missing  
I know something is missing  
I know something is missing  
I know something is missing (2x)

R: 'Cause I know something is missing...  
...I know something is missing now
