

Love Unafraid

Sherrié Austin

The rain has stopped fallin'
There's a hush in the air
You can feel the night holding its breath
We've stripped our defenses
Our souls are laid bare
Let's put our fears to the test

Come to me now with a love unafraid
Lay your heart down and stay
Leave the window open
Don't pull the shades
Let the morning sun show we've made
Love unafraid

The moonlight is chasin'
The shadows away
We got no more secrets to hide
So don't fight this feeling
Don't be ashamed
Of the need we've been keepin' inside

Make no promises
Tell no lies
And don't close your eyes
