

## Tenderly

Sherrié Austin

The air is cooling and the sun's going down  
The day's been grueling in this dusty old town  
My body's aching for what you do to me

Tenderly tenderly  
Tenderly tenderly

The words are easy when the language is love  
You know exactly what I'm thinking of  
My heart is hungry for what you do to me

Tenderly tenderly  
Tenderly tenderly

I've had lovers go up in flames  
Been with others who've had no names  
God I've waited patiently  
For someone who really touches me

I feel your fingers and their touch is like fire  
Sensations linger then they turn to desire  
My body's aching for what you do to me

Tenderly tenderly  
Tenderly tenderly
