

Flying Blind

Sheryl Crow

No one tells you when you're young
That life is full of questions
And there aren't that many answers
But I've come to believe sometimes
Yes or No depends on circumstances

Every morning I wake up, stare into my coffee cup
Never knowing what I'll find
Every day's a brand new day
I'm just tryna find a way to leave the other ones behind

'Cause I'm flying blind
I got no net to catch me when I fall
And I don't mind 'cause I am only human after all

Well then once upon a time seems like only yesterday
I thought I'd live forever
But now every breath I take I don't dare speculate
We can't predict the weather

Every morning I wake up, stare into my coffee cup
Never knowing what I'll find
Every day's a brand new day
I'm just tryna find a way to leave the other ones behind

And I'm flying blind
I got no net to catch me if I fall
I don't mind it seems I'm only human after all

Now and then I find myself back against the wall
With everything in front of me that I can't see at all

'Cause I'm flying blind
I got no net to catch me when I fall
And I don't mind 'cause I am only human after all
