

# Give It To Me

Sheryl Crow

Tell me you don't care  
Or tell me you're just scared  
But give me something I can hold on to

Just say what's on your mind  
Or am I just wasting time?  
If you don't want somebody loving you

You've got one foot in and one foot out the door  
And baby I can't take it anymore

Just give it to me  
Give it to me  
Give it to me  
All your love

You've got demons in your past  
You think real love doesn't last  
So pull me close and then push me away

Can't you look me in the eye?  
Could you scream or laugh or cry?  
But baby if you're leaving say goodbye

But if you can't find the right words anymore  
Well then take me up the stairs and close the door

Give it to me  
Just give it to me  
Give it to me  
All your love

Oh baby I'm begging you please  
You've got me down on my knees tonight  
I know what we have is real  
Please remember how it feels to us

You've got one foot in and one foot out the door  
And baby I can't take it anymore

Give it to me  
Just give it to me  
Give it to me  
All your love

Give it to me  
Give it to me  
Give it to me  
All your love
