

Nobody's Business

Sheryl Crow

It's getting late again tonight
And maybe you should just spend the night
But it ain't wrong as long as we think it's alright

But you don't have to park a block away
Or sneak out before the break of day
But if the neighbors see you who cares anyway?

It's nobody's business what we do
Let em all talk if they want to
It's nobody's business if I love you
Oh and I love you
Like nobody's business

Gossip makes the world go round
Especially in this stupid town
Somebody's probably driving by talking trash right now

It's nobody's business what we do
Let em all talk if they want to
It's nobody's business if I love you
Ooooooooooooooh
Ooooooooooooooh
Yea I'm gonna love you
Like nobody's business

It's nobody's business what we do
Let em all talk if they want to
It's nobody's business if I love you
Oh and baby I do
Ooooooooooooooh
Oh and I'm gonna love you baby
Like nobody's business

Let em talk, let em talk
Oh yea
Let em all talk yea
As long as they don't know it's us
