

# Lead Or Follow

Shihad

Day in, day out  
It's just light and sound  
You've been hanging around  
But that's over now

You learn a lie  
Feel dead inside  
And it's in your eyes  
You won't survive

Want to live forever  
Total system error  
Maybe I'm a failure  
Maybe I'll be greater

You get carried along  
And you can't feel it go

You won't feel it go  
'Til you get back up again  
You won't feel it go  
Lead or follow  
Lead or follow  
Lead or follow

Nothing better to do  
Feeling born inside you  
Major system failure  
Maybe see you later

You get carried along  
And you can't feel it go

You won't feel it go  
'Til you get back up again  
You won't feel it go  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow  
Lead or follow

Day in, day out

Been hanging around  
But that's over now
