Outta Phase

Who got the buzzer Who got the bell Who gonna false start Who gonna tell Got no possessions Got no car Just close my eyes Gone to far I don't care when my heads outta phase I'm prepared to feel just great I don't care for getting stuck with a life of wasted time You got my number I'm on your list Do me a favour Stick to the wrist Don't like that nose job Don't like her hair You heard the latest? Who really cares I don't care when my heads outta phase I'm prepared to feel just great I don't care for getting stuck with a life of wasted time I prefer walking out of line The latest offer You got the time Why do you bother? A movement sideways

Shihad

It's all it takes

Stand back
