

# The Final Year Of The Universe

Shihad

This is no mistake  
Turn to look to the future  
Hope it's not too late  
Finally get it to go

Did you forget yourself?  
There's always one hand feeding the other  
And if there's nothing else  
Well then there's nothing else  
You can forget yourself

Stand up

I am the fire in the air  
I'm in the cracks in the earth  
I am the final year  
Of this universe  
This universe

Don't let it go to waste  
You know that some things have no solutions  
And if there's no mistakes  
You should forgive yourself  
That belongs to no-one else

Stand up

I am the fire in the air  
I'm in the cracks in the earth  
I am the final year  
Of this universe  
This universe  
This universe  
This universe

This is no mistake  
Turn to look to the future  
Hope it's not too late  
Finally get it to go

I am the fire in the air  
I'm the cracks in the earth  
I am the silence you hear  
From the universe  
This universe  
This universe  
This universe
