

## When You Coming Home

Shihad

Here you are again  
It's a lonely life  
Puttng down a friend  
But you know you're right  
She don't want to think its an oversight  
We don't come to see things overnight

I've been thinking about another life  
You try anything to prove you're right  
Illuminate it in another light  
But we don't come to see things overnight

When you coming home?
