

## Adrenaline

Shinedown

Give me the wheel, so we can move a little faster.  
I'll make it real, I'm not a glorious disaster.  
What part of living says you gotta die?  
I plan on burning through another night lost.  
One more for measure, that's ten for the soul.  
That never sleeps so are you ready to go?

R: Bloodshot against the clear blue sky.  
Tick tock I think the well is running dry.  
My my, I can't lie.  
I need a shot again, that sweet adrenaline.  
Dead scared cause am fearless in the head.  
Bang bang cause the needle's in the red.  
My my, I can't lie.  
I need a shot again, that sweet adrenaline.  
My my!  
My sweet a adrenaline.

Crack in the vision, who said the motivation's all wrong?  
Not your decision, the detonation of a time bomb.  
Which way is up, when your high is low?  
It's time to find it are you ready to go?

R:

My my just cant lie,  
its the speed and the sound that am dying to try.  
My my just cant lie,  
its the love of the chase that created the ride!

R:
