

# Lady So Divine

Shinedown

In an earthquake, in main space  
Where I fell into you  
In a starlight, you look so bright  
You eclipse the moon  
On a highway, just today  
That's where I saw you  
It was music from a distance  
Burning proof

She's here to rescue me  
Clear my mind, and set me free  
If it's dark, she still shines  
A masterpiece made by design  
She's here to rescue me  
Stain my mind with make believe  
If it's dark, she still shines  
She's my lady, so divine  
Lady so divine, come and change my mind  
Lady so divine

When the waves break, and the soul shake  
Wreckage from the night  
On a mountain is a story  
Told a thousand times  
Of a garden, and a bed there  
Made to rest our eyes  
There's a comfort to a softness  
That will not be denied

She's here to rescue me  
Clear my mind, and set me free  
If it's dark, she still shines  
A masterpiece made by design  
She's here to rescue me  
Stain my mind with make believe  
If it's dark, she still shines  
She's my lady, so divine  
Lady so divine, come and change my mind  
Lady so divine

The midnight sun, she saves me  
From what I've become  
The midnight sun, she saves me  
From what I have done  
What I have done

She's here to rescue me  
Clear my mind, and set me free  
If it's dark, she still shines  
A masterpiece made by design  
She's come to rescue me  
Stain my mind with make believe  
If it's dark, she still shines  
She's my lady, so divine  
Divine!  
Divine!  
Divine!

She's my lady so divine  
Divine!  
She's my lady so divine  
Lady so divine, come and change my mind  
Lady so divine
