

Dangerous (Medusa II)

SHINee

No one has ever seen a woman like you properly
Because the moment they lock eyes with you, it's over
To them, you are...

Trouble, the rumors are double, however they want
Danger, danger, danger
You're someone who can't be approached, your danger became taboo
But who has checked?
Are you really a danger, danger, danger
(5 4 3 2 1)

The flashier it is, the more thorns there are
I know that I won't be able to catch you in the end
But I want to check and see if you're dangerous
Dangerous, you're so dangerous

(3 2 1)

The exaggerated words are boomed up
In my eyes, that is the real monster
I sharply go after you, keep threatening you
Attacking with danger

You hide inside the violence and darkness
At some point, I get used to you
Now, it's really a danger, danger, danger
(3 2 1)

The flashier it is, the more thorns there are
I know that I won't be able to catch you in the end
But I want to check and see if you're dangerous
Dangerous, you're so dangerous

I'm looking for Danger
I think I'm frozen
The moment we lock eyes, you are perfectly beautiful

As if I'm nailed down, I stop in place and I can't breathe
Your eyes encroach me like this
That moment, I see your scars
It seems like you're struggling to smile at me

I go toward the brightly shining light
My desire for you suddenly whispers to me
Though it's dangerous, I will protect you
Dangerous You're so Dangerous

Dangerous You're so Dangerous
Dangerous
