

Destination

SHINee

I thought it was natural, I had to time to doubt
I wasn't lonely because we were together, I was just used to it
One step, two steps, our steps were in sync, just following this flag
One day, two days, we just lived, without knowing where we're going

The flag flies in the wind, covering my eyes, making things dark
Will I be able to see my destination?
The flag sways in the wind, floating in front of my footsteps
Will I be able to go to my destination?

Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination
Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination

There wasn't anything I haven't heard of, there wasn't anything I couldn't say
I closed my eyes and turned on the lights as I built up the truth without logic
"This is what it is, it's the right way, that's just how it is"
Not knowing that it might be the wrong thing

The flag flies in the wind, covering my eyes, making things dark
Will I be able to see my destination?
The flag sways in the wind, floating in front of my footsteps
Will I be able to go to my destination?

Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination
Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination

These footsteps only followed footprints as it made history
The stars have stopped and shone on my path

Led to this unknown place, getting more and more sucked in steeply
I push back the vague air that I clashed into, this flow
I can't see ahead of me, close your eyes and feel this, step by step, everyone
The fertilizer for my future is what my footsteps are right now
Heading toward the future, to our blessings

Is everything already decided? Why can't I stop?
Will I be able to see my destination?
Will everything be in front of me? Where will that flag stop?
Will I be able to go to my destination?

Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination
Na na na na na na na na na na na na na na na na
Na na na na na na na na na, my destination
