

Like A Fire

SHINee

Somebody help me, it's an emergency
A fever is rising in my body after I saw you
My heart is so hot that my hands might get burned
Take responsibility for my love

My entire body is hot (oh no) even when it rains (hot hot)
Even when water is sprayed (hot hot) it's so hot (hot hot)
My breath is shaking (my love) from today, I (my love)
I love you (My love)

Accept my love and my heart that are hotter than the sun

My love will burn everything up like a fire, like a fire
Just for you alone, like a fire, like a fire
I'll burn everything up, like a fire, like a fire
I love you till the end of the sun, like a fire, like a fire

I can't explain my feelings right now
No word can express you
I feel like I could explode when I look into your eyes
Take responsibility for my love

My entire body is hot (oh no) even when it rains (hot hot)
Even when water is sprayed (hot hot) it's so hot (hot hot)
My breath is shaking (my love) from today, I (my love)
I love you (My love)

Accept my love and my heart that are hotter than the sun

My love will burn everything up like a fire, like a fire
Just for you alone, like a fire, like a fire
I'll burn everything up, like a fire, like a fire
I love you till the end of the sun, like a fire, like a fire

I love you, I love you passionately

My love will burn everything up like a fire, like a fire
Just for you alone, like a fire, like a fire
I'll burn everything up, like a fire, like a fire
I love you till the end of the sun, like a fire, like a fire

(I'll burn up my heart for you, fire, it goes up endlessly, higher
Only you
Trust me, like a fire
Baby, trust me)

Like a Fire
Like a Fire, Fire
Like a Fire, Fire
