

## Eternal Fight

## Shining Fury

Try, you know... It's really right  
Fine: now can you feel the flavour of the blood?

Devil  
Take the knife with your left hand  
Lookin' for the courage to rape-off one more life!

The hell's flame burns deep down in your eyes

Devil  
Far from you get the chains of love!

Angel  
Stop! You can't destroy him!  
Now leave the evil;  
You must resist!

Angel  
You are the lord of your life...

Devil:  
Forgot the goodness of your kind!

Angel  
Respect your heart and believe every night...

Devil:  
Come on with me!

Get out!  
You're only tiresome  
And you...  
Kill now this man!  
And take! That's your glory!

The hell's flame burns deep down in your eyes

Devil  
Far from you get the chains of love!

Angel  
Stop! You can't destroy him!  
Now leave the evil;  
You must resist!

Angel  
You are the lord of your life...

Devil:  
Forgot the goodness of your kind!

Angel  
Respect your heart and believe every night...

Devil:  
Come on with me!
