Speed of Life

Shining Fury

I don't believe that in this world I've found a reason to reload my strength and my soul t 00 I must believe in heaven I cannot breath to die again One more time I don't want to be tired and sad Crazy time I can't stop the speed of my life I won't to complete in this race I raise my arms and I join my hands to the sky, I'll pray Watchin' in the mirror I can see my face and all my pain Deep in my eyes Lookin' now my shoulders I can feel the sorrows of my life Deep in mind I can't maintain that in this life I've found a little hope to smile I've seen the frames of my brain Now stop to drink, to fallin' down I will revise forever my compassion and my mistakes I must believe in heaven I cannot breath to die again One more time I don't want to be tired and sad Crazy time I can't stop the speed of my life I won't to complete in this race I raise my arms and I join my hands to the sky, I'll pray Watchin' in the mirror I can see my face and all my pain Deep in my eyes Lookin' now my shoulders I can feel the sorrows of my life Deep in mind Crazy time I can't stop the speed of my life I won't to complete in this race I raise my arms and I join my hands to the sky, I'll pray Watchin' in the mirror I can see my face and all my pain Deep in my eyes Lookin' now my shoulders

I can feel the sorrows of my life Deep in mind
