

Together

Shining Fury

Smilin' I've seen your greatest dream
tonight I can be like a fire
still I can kiss your lips with my black soul
to feel your life deep down my heart

Takin' your hands into my hands
I can look for my salvation
tell me yes! please do you feel the heart bit o' mine
for you, I can make now a new

world , light , stay together
with you , now , i can fly

I've said please but you don't understand
I've said please , but you are go away
tonight I'll cry
Tonight I'll can only die here
'cause my life is full of shit

give me sorrow - take my blood away

give me sorrow - take my blood away

I run away because I'm searchin '
for a new place where I'll can die
I don't wanna get out my heart down on fire
I must see again your smile!!!!
